

To whome it may concerned, please reject the NAB'S petition 04-160. Since I am a pay subscriber, I have the right to listen to XM radio. They offer excellent programing, especially xm instant traffic & weather This is censorship, so please I beg of you; don't take any of the program from xm radio. I pay for this service, I have the right to listen to these programs. Why should a station that don't want to compete with xm, dictate to what I have to listen too? Your immediately response to this manner, will be most appreciated. Sincerily a loyal xn listener.
